Directors' Report

Operations and Financial Review

The consolidated net loss after income tax for the year was \$7,270,174 (2024: \$1,327,136). The loss for the year is after recognising written off expenses for previously capitalised exploration licence acquisition costs amounting to \$5,289,999 (2024: \$240,000) and previously capitalised exploration costs amounting to \$860,389 (2024: \$219,263).

During the year the Group raised a total of \$2,814,250 before issue costs pursuant to a share placement of 40,203,571 ordinary fully paid shares at an issue price of \$0.07 per share. In addition, the Group issued a total of 600,000 ordinary fully paid shares at an issue price of \$0.061 per share pursuant to a tenement application withdrawal agreement with an unrelated party.

During the year the Group incurred an amount of \$2,611,233 (2024: \$3,339,322) in respect of its exploration activities which were focused on gold exploration at the Group's West Tanami and Yligarn Gold Projects in Western Australia.

At the end of the year the Group had \$4,891,230 (30 June 2024: \$4,910,670) in cash and at call deposits. Capitalised mineral exploration and evaluation expenditure was \$14,107,273 (30 June 2024: \$18,347,906).

Material Business Risks

The Company operates in the mineral exploration industry in Australia and as such is exposed to and manages various risks typical of operating in that sector pursuant to the principles included in the Company's Audit and Risk Management Committee Charter. A summary of the key risks that the Company is exposed to are as follows:

Future capital requirements

The Company requires financial resources in order to carry out its exploration activities. Failure to obtain appropriate financing on a timely basis could cause the Company to have an impaired ability to expend the capital necessary to undertake or complete drilling programs, forfeit its interests in certain properties, and reduce or terminate its operations entirely. If the Company raises additional funds through the issue of equity securities, this may result in dilution to the existing shareholders and/or a change of control at the Company.

Exploration and evaluation risks

Mineral exploration and development is inherently highly speculative and involves a significant degree of risk. There is no guarantee that it will be economic to extract these resources or that there will be commercial opportunities available to monetise these resources.

Title, tenure and land access risks

The rights to mineral tenements carry with them various obligations which the Company is required to comply with in order to ensure the continued good standing of the tenement. Failure to meet these requirements could prejudice the right to maintain title to a given area and result in government or third-party action to forfeit a tenement or tenements.

Mining and exploration tenements are subject to periodic renewal. The renewal of the term of granted tenements is subject to compliance with the applicable mining legislation and regulations and the discretion of the relevant mining authority.

In relation to tenements which the Company has an interest in or will in the future acquire such an interest, there are areas over which legitimate common law native title rights of Aboriginal Australians exist. Where native title rights exist, the ability to gain access to tenements (through obtaining consent of any relevant landowner), or to progress from the exploration phase to the development and mining phases of operations may be adversely affected.

Hamelin Gold Limited
ABN 15 650 439 580

Directors' Report

Environmental risks

The Company's operations and projects are subject to various health and environmental laws and regulations of jurisdictions in which it has interests. The Company conducts its activities to a high standard in compliance with environmental laws.

Sovereign risk

The Company is subject to political, social, economic and other uncertainties including, but not limited to, changes in policies or the personnel administering them, foreign exchange restrictions, changes of law affecting foreign ownership, currency fluctuations, royalties and tax increases.

Significant Changes in the State of Affairs of the Group

Other than as stated in this report there has not arisen during or since the end of the year any material changes in the state of affairs of the Group.

Matters Subsequent to the End of the Reporting Period

There has not arisen in the interval between the end of the year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Group to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

Options over Unissued Capital

Unlisted Options

As at the date of this report 18,108,258 (30 June 2024: 13,088,258) unissued ordinary shares of the Company are under option as follows:

Directors' Report

Since the end of the year:

- no options have been issued;
- no options have been exercised; and
- no options have been cancelled due to the lapse of the exercise period.

Options do not entitle the holder to participate in any share issue of the Company or any other body corporate. The holders of unlisted options are not entitled to any voting rights until the options are exercised into ordinary shares.

Issued Capital

<i>Number of Shares on Issue</i>		
	<i>2025</i>	<i>2024</i>
Ordinary fully paid shares	198,303,571	157,500,000

At the date of this report there are 198,303,571 ordinary fully paid shares on issue.

Likely Developments and Expected Results of Operations

The Group expects to maintain exploration programs at its 100% owned West Tanami and Yilgarn Gold Projects located Western Australia.

Disclosure of any further information has not been included in this report because, in the reasonable opinion of the Directors to do so would be likely to prejudice the business activities of the Group and is dependent upon the results of the future exploration and evaluation.

Dividends

No dividend has been paid since the end of the previous year and no dividend is recommended for the current year.

Environmental Regulation and Performance

The Group holds various exploration licences to regulate its exploration activities in Australia. These licences include conditions and regulations with respect to the rehabilitation of areas disturbed during the course of its exploration activities. So far as the Directors are aware, all exploration activities have been undertaken in compliance with all relevant environmental regulations.

Remuneration Report (Audited)

Remuneration paid to Directors and Officers of the Company is set by reference to such payments made by other ASX listed companies of a similar size and operating in the mineral exploration industry. In addition, reference is made to the financial position of the Company and the specific skills and experience of the Directors and Officers.

Details of the nature and amount of remuneration of each Director, and other Key Management Personnel if applicable, are disclosed annually in the Company's Annual Report.

The Company did not engage the services of independent remuneration consultants during the year.

Directors' Report

Remuneration Report (Continued)

Remuneration Committee

The Board has adopted a formal Remuneration Committee Charter which provides a framework for the consideration of remuneration matters.

The Company does not have a separate remuneration committee and as such all remuneration matters are considered by the Board as a whole, with no member deliberating or considering such matter in respect of their own remuneration.

In the absence of a separate Remuneration Committee, the Board is responsible for:

1. Setting remuneration packages for Executive Directors, Non-Executive Directors and other Key Management Personnel; and
2. Implementing employee incentive and equity-based plans and making awards pursuant to those plans.

Non-Executive Remuneration

The Company's policy is to remunerate Non-Executive Directors, at rates comparable to other ASX listed companies in the same industry, for their time, commitment and responsibilities.

Non-Executive remuneration is not linked to the performance of the Company, however to align Directors' interests with shareholders' interests, remuneration may be provided to Non-Executive Directors in the form of equity based long term incentives.

1. Fees payable to Non-Executive Directors are set within the aggregate amount approved by shareholders at the Company's Annual General Meeting;
2. Non-Executive Directors' fees are payable in the form of cash and superannuation benefits;
3. Non-Executive superannuation benefits are limited to statutory superannuation entitlements; and
4. Non-Executive Directors are offered an annual election to receive cash remuneration or an equivalent amount in unlisted options. The annual election relates to the remuneration period from 1 December to 30 November of the relevant year and is subject to approval by the Company's shareholders.
5. Participation in equity-based remuneration schemes by Non-Executive Directors is subject to consideration and approval by the Company's shareholders.

The maximum Non-Executive Directors fees, payable in aggregate are currently set at \$350,000 per annum.

Executive Director and Other Key Management Personnel Remuneration

Executive remuneration consists of base salary, plus other performance incentives to ensure that:

1. Remuneration packages incorporate a balance between fixed and incentive pay, reflecting short and long-term performance objectives appropriate to the Company's circumstances and objectives; and
2. A proportion of remuneration is structured in a manner to link reward to corporate and individual performances.

Executives are offered a competitive level of base salary at market rates (based on comparable ASX listed companies) and are reviewed regularly to ensure market competitiveness. To date, the Company has not engaged external remuneration consultants to advise the Board on remuneration matters.

Incentive Plans

The Company provides long term incentives to Directors and Employees pursuant to the Hamelin Gold Employee Share Option Plan, which was last approved by shareholders at the Annual General Meeting held on 24 November 2023.

Hamelin Gold Limited
ABN 15 650 439 580

Directors' Report

Remuneration Report (Continued)

The Board, acting in remuneration matters:

1. Ensures that incentive plans are designed around appropriate and realistic performance targets and provide rewards when those targets are achieved;
2. Reviews and approves existing incentive plans established for employees; and
3. Approves the administration of the incentive plans, including receiving recommendations for, and the consideration and approval of grants pursuant to such incentive plans.

Engagement of Non-Executive Directors

Non-Executive Directors conduct their duties under the following terms:

1. A Non-Executive Director may resign from their position and thus terminate their contract on written notice to the Company; and
2. A Non-Executive Director may, following resolution of the Company's shareholders, be removed before the expiration of their period of office (if applicable). Payment is made in lieu of any notice period if termination is initiated by the Company, except where termination is initiated for serious misconduct.

In consideration of the services provided by Mr Will Robinson as Non-Executive Chairman and Mr Justin Osborne and Mr Philip Crutchfield as Non-Executive Directors, the Company pay them \$50,000 plus statutory superannuation per annum.

Non-Executive Directors are also entitled to fees for other amounts as the Board determines where they perform special duties or otherwise perform extra services or make special exertions on behalf of the Company. During the year the Group incurred no such additional costs.

Engagement of Executive Director

The Company has entered into an executive service agreement with Mr Peter Bewick on the following material terms and conditions:

Mr Bewick's current service agreement with the Company, in respect of his engagement as Managing Director, is effective from 1 November 2021. Mr Bewick receives a base salary of \$290,000 per annum plus statutory superannuation.

Executive directors may also receive an annual short-term performance-based bonus which may be calculated as a percentage of their current base salary, the performance criteria, assessment and timing of which is negotiated annually with the Non-Executive Directors.

Either party may give the other six months' notice in writing to terminate the Services Agreement or with payment or forfeiture in lieu. The Company may terminate the respective services agreements without notice for serious misconduct by an executive director.

Executive Directors may, subject to shareholder approval, participate in the Hamelin Gold Employee Share Option Plan and other long term incentive plans adopted by the Board.

Short Term Incentive Payments

Each year, the Non-Executive Directors may set the Key Performance Indicators (KPI's) for the Executive Director. The KPI's are chosen to align the reward of the individual Executive to the strategy and performance of the Company.

Hamelin Gold Limited
ABN 15 650 439 580

Directors' Report

Remuneration Report (Continued)

Performance objectives, which may be financial or non-financial, or a combination of both, are weighted when calculating the maximum short-term incentives payable to Executives. At the end of the year, the Non-Executive Directors will assess the actual performance of the Executives against the set performance objectives. The maximum amount of the short-term incentive, or a lesser amount depending on actual performance achieved is paid to the Executives as a cash payment.

Shareholding Qualifications

The Directors are not required to hold any shares in Hamelin Gold under the terms of the Company's constitution. However, Directors have made their own investment decisions to hold shares in Hamelin Gold which are shown in this report.

Group Performance

In considering the Group's performance, the Board provides the following indices in respect of the current financial year and previous financial years:

	2025	2024	2023	2022	2021
Loss for the year attributable to shareholders	\$(7,270,174)	\$(1,327,136)	\$(994,346)	\$(1,295,794)	N/a
Closing share price at 30 June	\$0.065	\$0.08	\$0.093	\$0.10	N/a

As an exploration company, the Board does not consider the profit/(loss) attributable to shareholders as one of the performance indicators when implementing Short Term Incentive Payments. In addition to economic and technical exploration success, the Board considers more appropriate indicators of management performance for the 2025 financial year to include:

- corporate management and business development (including the identification and acquisition of high quality projects);
- project and operational performance (including safety and environmental management);
- cash flow and funding management.

Remuneration Report (Continued)

Loans made to key management personnel

No loans were made to key personnel, including personally related entities during the reporting period.

Other transactions with key management personnel

During the year the Company paid remuneration to Lachlan Bewick, a related party of the Managing Director, in respect of his employment with the Company. Cash based remuneration, inclusive of superannuation contributions, amounted to \$133,800 for the year (2024: \$122,100). During the year the Company issued Lachlan Bewick a total of 300,000 unlisted employee incentive options (2024: nil) with a value of \$12,112.

Other than as stated, there were no other transactions with key management personnel.

End of Remuneration Report

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company or Group, or to intervene in any proceedings to which the Company or Group is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

Officers' Indemnities and Insurance

During the year the Company paid an insurance premium to insure certain officers of the Company. The officers of the Company covered by the insurance policy include the Directors named in this report.

The Directors and Officers Liability insurance provides cover against all costs and expenses that may be incurred in defending civil or criminal proceedings that fall within the scope of the indemnity and that may be brought against the officers in their capacity as officers of the Company. The insurance policy does not contain details of the premium paid in respect of individual officers of the Company. Disclosure of the nature of the liability cover and the amount of the premium is subject to a confidentiality clause under the insurance policy.

The Company has not provided any insurance for an auditor of the Company.

Non-audit Services

Crowe Perth acted as auditor of the Company until their resignation on 8 May 2024 following which Nexia Perth Audit Services Pty Ltd (Nexia Perth) were appointed as auditor of the Company.

There were no non-audit services provided by the Company's auditors during the period.

Non-audit Services (continued)

The board considers any non-audit services provided during the year by the auditor and satisfies itself that the provision of any non-audit services during the year by the auditor is compatible with, and does not compromise, the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services are reviewed by the board to ensure they do not impact the impartiality and objectivity of the auditor; and
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants*, as they do not involve reviewing or auditing the auditor's own work, acting in a management or decision making capacity for the Company, acting as an advocate for the Company or jointly sharing risks and rewards.

Auditor's Independence Declaration

A copy of the Auditor's Independence Declaration as required under Section 307C of the Corporations Act is set out on the following page.

This report is made in accordance with a resolution of the Directors.

Dated at Perth this 29th day of September 2025.

Peter Bewick
Managing Director

To the Board of Directors of Hamelin Gold Limited

Auditor's Independence Declaration under section 307C of the *Corporations Act 2001*

As lead auditor for the audit of the financial statements of Hamelin Gold Limited for the financial year ended 30 June 2025, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- (a) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) any applicable code of professional conduct in relation to the audit.

Yours sincerely

Notes to the Financial Statements
For the year ended 30 June 2025

Note 1 Summary of material accounting policy information

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial report includes financial statements for the consolidated entity consisting of Hamelin Gold Limited and its subsidiaries ("Group").

Basis of preparation

This general-purpose financial report has been prepared in accordance with Australian Equivalents to International Financial Reporting Standards ("AIFRS"), other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

The financial report has been prepared on a going concern basis and is presented in Australian dollars and all values are rounded to the nearest dollar. The separate financial statements of the parent entity have not been presented within this financial report as permitted by the Corporations Act 2001. The financial report of the Group was authorised for issue in accordance with a resolution of Directors on 29 September 2025.

Statement of Compliance

The consolidated financial report of Hamelin Gold Limited complies with Australian Accounting Standards, which include AIFRS, in their entirety. Compliance with AIFRS ensures that the financial report also complies with International Financial Reporting Standards ("IFRS") in their entirety.

Adoption of new and revised Accounting Standards

The Group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") that are mandatory for the current reporting period. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the Group during the year.

New standards and interpretations not yet adopted

The AASB has issued new and amended Accounting Standards and Interpretations that have mandatory application date for future reporting periods and which the Group has decided not to early adopt.

Reporting basis and conventions

These financial statements have been prepared under the historical cost convention, and on an accrual basis.

Critical accounting estimates

The preparation of financial statements in conformity with AIFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

Principles of consolidation

The financial statements of subsidiary companies are included in the consolidated financial statements from the date control commences until the date control ceases. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. The financial statements of subsidiary companies are prepared for the same reporting period as the parent company, using consistent accounting policies. Inter-entity balances resulting from transactions with or between controlled entities are eliminated in full on consolidation. Investments in subsidiary companies are accounted for at cost in the individual financial statements of the Company.

Notes to the Financial Statements
For the year ended 30 June 2025

Note 1 Summary of material accounting policy information (continued)

(a) Segment reporting

Operating segments are identified and segment information disclosed, where appropriate, on the basis of internal reports reviewed by the Company's board of directors, being the Group's Chief Operating Decision Maker, as defined by AASB 8.

(b) Other income

Interest income

Interest income is recognised on a time proportion basis and is recognised as it accrues.

(c) Income tax

The income tax expense or benefit for the year is the tax payable on the current year's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to the temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for temporary timing differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantially enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to those timing differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

(d) Impairment of assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash generating units). Non-financial assets, other than goodwill, that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

Notes to the Financial Statements
For the year ended 30 June 2025

Note 1 Summary of material accounting policy information (continued)

(e) Cash and cash equivalents

For cash flow statement presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(f) Government grants

Government grants are recognised at fair value where there is reasonable assurance that the grant will be received and all grant conditions will be met. Grants relating to expense items are recognised as income over the periods necessary to match the grant to the costs they are compensating. Grants relating to assets are deducted from the carrying value of the relevant asset.

Amounts receivable from the Australian Tax Office in respect of research and development tax concession claims are recognised in the year in which the claim is lodged with the Australian Tax Office. Amounts receivable are allocated in the financial statements against the corresponding expense or asset in respect of which the research and development concession claim has arisen.

(g) Fair value estimation

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

(h) Property, plant and equipment

Property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the assets. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of profit or loss and other comprehensive income during the financial period in which they are incurred.

Hamelin Gold Limited
ABN 15 650 439 580

Notes to the Financial Statements
For the year ended 30 June 2025

Note 1 Summary of material accounting policy information (continued)

Depreciation of property, plant and equipment is calculated using the straight line and diminishing value methods to allocate their cost, net of residual values, over their estimated useful lives, as follows:

Asset Class	Depreciation Rate
Field equipment and vehicles	25-33%
Office equipment	33%

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 1(d)). Gains and losses on disposal are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of profit or loss and other comprehensive income.

(i) Mineral exploration and evaluation expenditure

Mineral exploration and evaluation expenditure is written off as incurred or capitalised in respect of each identifiable area of interest and capitalised. These costs are carried forward only if they relate to an area of interest for which rights of tenure are current and in respect of which:

- such costs are expected to be recouped through the successful development and exploitation of the area of interest, or alternatively by its sale; or
- exploration and/or evaluation activities in the area have not reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves and active or significant operations in, or in relation to, the area of interest are continuing.

In the event that an area of interest is abandoned or if the Directors consider the expenditure to be of reduced value, accumulated costs carried forward are written off in the year in which that assessment is made. A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Immediate restoration, rehabilitation and environmental costs necessitated by exploration and evaluation activities are expensed as incurred and treated as exploration and evaluation expenditure. Exploration activities resulting in future obligations in respect of restoration costs result in a provision to be made by capitalising the estimated costs, on a discounted cash basis, of restoration and depreciating over the useful life of the asset. The unwinding of the effect of the discounting on the provision is recorded as a finance cost in the statement of profit or loss and other comprehensive income.

Project generation funding receivable

Where funds are received or receivable from partners regarding monetary contributions for project identification, validation or exploration, the funds received are allocated in the financial statements against the corresponding expense or exploration asset.

(j) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the year which are unpaid. The amounts are unsecured and usually paid within 30 days of recognition.

Hamelin Gold Limited
ABN 15 650 439 580

Notes to the Financial Statements
For the year ended 30 June 2025

Note 1 Summary of material accounting policy information (continued)

(k) Employee benefits

Wages, salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits, and annual leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

Long service leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future salaries, experience of employee departures and periods of service. Expected future payments are discounted at the corporate bond rate with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Equity based remuneration

Share based compensation payments are made available to Directors and employees.

The fair value of options granted is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

The fair value at grant date is independently determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free rate for the term of the option.

The fair value of the options granted is adjusted to reflect market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. At each reporting date, the entity revises its estimate of the number of options that are expected to become exercisable. The employee benefit expense recognised each period takes into account the most recent estimate.

Upon the exercise of options, the balance of the share based payments reserve relating to those options is transferred to share capital and the proceeds received, net of any directly attributable transaction costs, are credited to share capital.

Upon the cancellation of options on expiry of the exercise period, or lapsing of vesting conditions, the balance of the share based payments reserve relating to those options is transferred to retained earnings.

(l) Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Hamelin Gold Limited
ABN 15 650 439 580

Notes to the Financial Statements
For the year ended 30 June 2025

Note 1 Summary of material accounting policy information (continued)

(m) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the earnings attributable to equity holders of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(n) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as a part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the balance sheet. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the taxation authority, are presented as operating cash flow.

(o) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current year.

(p) Current versus non-current classification

The Group presents assets and liabilities in the statement of financial position based on a current or non-current classification.

An asset is current when it is:

- Expected to be realized, or intended to be sold or consumed in the Group's normal operating cycle;
- Expected to be realized within twelve months after the reporting period; or
- Cash or a cash equivalents (unless restricted for at least twelve months after the reporting period).

A liability is current when it is:

- Expected to be settled in the Group's normal operating cycle;
- It is due to be settled within twelve months after the reporting date; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other assets and liabilities are classed as non-current.

Notes to the Financial Statements
For the year ended 30 June 2025

Note 2 Financial risk management

The Group has exposure to a variety of risks arising from its use of financial instruments. This note presents information about the Company's exposure to the specific risks, and the policies and processes for measuring and managing those risks. The Board of Directors has the overall responsibility for the risk management framework and has adopted a Risk Management Policy.

(a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from transactions with customers and investments.

Trade and other receivables

The nature of the business activity of the Group does not result in trading receivables. The receivables that the Group does experience through its normal course of business are short term and the most significant recurring by quantity is receivable from the Australian Taxation Office, the risk of non-recovery of receivables from this source is considered to be negligible.

Cash deposits

The Directors believe any risk associated with the use of predominantly only one bank is addressed through the use of at least an A-rated bank as a primary banker and by the holding of a portion of funds on deposit with alternative A-rated institutions. Except for this matter the Group currently has no significant concentrations of credit risk.

(b) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages its liquidity risk by monitoring its cash reserves and forecast spending. Management is cognisant of the future demands for liquid finance resources to finance the Company's current and future operations, and consideration is given to the liquid assets available to the Company before commitment is made to future expenditure or investment.

(c) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising any return.

Interest rate risk

The Group has significant cash assets which may be susceptible to fluctuations in changes in interest rates. Whilst the Group requires the cash assets to be sufficiently liquid to cover any planned or unforeseen future expenditure, which prevents the cash assets being committed to long term fixed interest arrangements; the Group does mitigate potential interest rate risk by entering into short to medium term fixed interest investments.

Equity risk

The Group has no material exposure to equity risk.

Foreign exchange risk

The Group does not have any direct contact with foreign exchange fluctuations other than their effect on the general economy.

Notes to the Financial Statements
For the year ended 30 June 2025

Note 3 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances. The judgements estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next year are discussed below:

Accounting for capitalised exploration and evaluation expenditure

The Group's accounting policy is stated at 1(i). There is some subjectivity involved in the carrying forward as capitalised or writing off to the income statement exploration and evaluation expenditure. Key judgements applied include determining which expenditures relate directly to exploration and evaluation activities and allocating overheads between those that are expensed and capitalised.

Management give due consideration to areas of interest on a regular basis and are confident that decisions to either write off or carry forward such expenditure reflect fairly the prevailing situation.

Accounting for equity based remuneration

The values of amounts recognised in respect of share based payments have been estimated based on the fair value of the equity instruments granted. Fair values of options issued are estimated by using an appropriate option pricing model. There are many variables and assumptions used as inputs into the models. If any of these assumptions or estimates were to change this could have a significant effect on the amounts recognised. See note 15 for details of inputs into option pricing models in respect of options issued during the year.

Employee benefits provision

As discussed in note 1, the liability for employee benefits expected to be settled more than 12 months from the reporting date are recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

Note 4 Segment information

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors in assessing performance and determining the allocation of resources. Reportable segments disclosed are based on aggregating operating segments, where the segments have similar characteristics. The Group's sole activity is mineral exploration and resource development wholly within Australia, therefore it has aggregated all operating segments into the one reportable segment being mineral exploration.

The reportable segment is represented by the primary statements forming these financial statements.

Independent Auditor's Report to the Members of Hamelin Gold Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the consolidated financial statements of Hamelin Gold Limited ("the Company") and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 30 June 2025 the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial statements of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2025 and of its performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial statements section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial statements in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Advisory. Tax. Audit.

Key audit matter	How our audit addressed the key audit matter
Funding and liquidity <i>(Refer to note 1 in the financial statements)</i> Hamelin Gold Limited is a mineral exploration company focused on unlocking the potential of the gold provinces of the West Tanami Gold Project in Western Australia. The Group is reliant on funding from external sources, such as capital raising, to support its operational activities. We focused on whether the Group had sufficient cash resources and access to funding to allow the Group to continue as a going concern. The adequacy of funding and liquidity as well as the relevant impact on the going concern assessment is a key audit matter due to the inherent uncertainties associated with the future development of the Group's projects and the level of funding required to support that development.	Our procedures included, amongst others: • assessing the Group's working capital position as at 30 June 2025; • vouching the cash and cash equivalents to supporting documentation; • obtaining an understanding of management's cashflow forecast and evaluated the sensitivity of assumptions made by management; • checking the mathematical accuracy of the cash flow forecast prepared by management; • evaluating the reliability and completeness of management's assumptions by comparing them to our understanding of the Group's future plans and operating conditions; • considering events subsequent to year-end to determine whether any additional facts or information have become available since the date on which management made its assessment; and • assessing the appropriateness of the disclosures in the financial statements.
Capitalised mineral exploration and evaluation expenditure <i>Refer to Note 11 (Capitalised mineral exploration and evaluation expenditure)</i> As at 30 June 2025 the carrying value of the Company's capitalised mineral exploration and evaluation expenditure was \$14,107,273. The Group's policy in respect to capitalised mineral exploration and evaluation expenditure is outlined in Note 1 (i). This is a key audit matter due to the fact that significant judgment is applied in determining whether: • The capitalised mineral exploration and evaluation expenditure meet the recognition criteria of AASB 6 <i>Exploration for and Evaluation of Mineral Resources</i> ("AASB 6"); and • facts and circumstances exist that suggest that the carrying value of the capitalised mineral exploration and evaluation expenditure is in accordance with AASB 6.	Our procedures included, amongst others: • verifying that the rights to tenure to the areas of interest remained current as at the reporting date; • obtaining an understanding of the status of ongoing exploration programs for the areas of interest; • obtaining evidence of the future intention for the areas of interest, including reviewing future budgeted expenditure and related work programs; • considering management's assessment of potential indicators of impairment; and • assessing the appropriateness of the disclosures in the financial statements.

Other Information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2025, but does not include the financial statements and the auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the other information we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial statements

The directors of the Company are responsible for the preparation of:

- a) the financial statements (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- i) the financial statements (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii) the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial statements.

A further description of our responsibilities for the audit of the financial statements is located at The Australian Auditing and Assurance Standards Board website at:

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 8 to 16 of the Directors' Report for the year ended 30 June 2025.

In our opinion, the Remuneration Report of Hamelin Gold Limited for the year ended 30 June 2025 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
